Subject: Opinion regarding Microsoft

Hello,

I am a computer professional, most 'techies' I know think that Microsoft has violated anti-trust laws and will continue to do so as long as they are allowed to by the government. Bill Gates testimony was a classic illustration of his contempt for the government. Microsoft has foisted inferior software on the public and driven good software off the market with his anti competitive strategies.

Please do not let them off so easily. They are just laughing at all you!

Thanks,

Carol
